

FIBRE DAY

On Sunday 20TH September 2009

At Meon Valley Alpacas, Grooms Cottage,
Midlington Hill, Droxford SO32 3PU

Sue Blacker from the Natural Fibre Company will be coming to talk to us about fleece processing and show us examples of yarns and goods produced. There will also be a demonstration of how to sort a fleece as well as help with sorting fleeces.

The Natural Fibre Company need a minimum of 20 kg in each colour for processing. However colours can be blended – for instance red brown and fawn makes a lovely strawberry beige yarn. If you would like to have your fleece processed bring it with you for Sue to collect. If you don't have 20 kg, it may be possible to join together with another member to make up the 20 kg minimum. Let us know on the form below if you are thinking of bringing fleece and we will try to put together some groups.

There will be handspinning and weaving demonstrations and an opportunity to buy equipment if you fancy having a go yourself.

Arrive 11am and bring a picnic lunch – if the weather is wet we will go to the pub for lunch! The Day will be free for SAG Members.

I would like to attend the Fibre Day on 20 September.
